BUSINESS SALES WITH INTEGRITY

This service business has continually increased its annual revenue and the 2018 cash surplus was *$395K to the working owner. Highly structured with a quality team, this systems driven operation means the Vendor only deals with a few of t he top tier staff and by leading just a few people within the company has created a semi passive income which allows flexibility to spend time with his family and weekly leisure activities.

Established by the owner in 2007, this service company was setup with a focus on delivering consistently high standards of service and workmanship to their client's projects. 11 years down the track the Vendor has created an award winning, highly reputable, profitable operation showing consistent year on year growth.

The bulk of the *31 highly skilled staff are overseen by a very capable Operations Manager who would be competent in a GM position should the incoming owner want less involvement day to day in the business. By developing successful systems and marketing strategies the company provides quality services consistent with their client's needs. The Vendor has created a highly successful, process driven

operation with proven success, allowing for a new owner to step into this turnkey operation and reap the rewards by capitalising on the buoyant market.

Asking Price: $1,100,000 Including plant (16 vehicles) and stock.
