

PROFIT IS \$400K+

Niche Specialist Engineering – High Earner

This strong, essential, consistent niche services business has produced *cash surpluses of \$400K for many years in a row. Regardless of recessions or lockdowns, results remain excellent and stable.

They offer specialist services to a niche market, providing in-demand repair and maintenance services to high volume essential product manufacturers.

With a small team of well-trained staff, a solid core of repeat clients and 20 years of excellent reputation, this is a winning model which is easily managed by the vendor.

This will suit someone with a background in one of the engineering or mechanical trades who is entrepreneurial and wants to run their own business. If you have the training & desire to be a reasonably hands-on owner operator, here is an opportunity for you to earn a very high income.

- A constant stream of work from long-standing clients
- No stock requirement
- Excellent cash flow
- A very high gross margin
- No immediate capital expenditure required
