

Niche Carrier Biz – Earn a Great Income

Average income to working owner approx. \$198K*

- Earn a great income
- Long established client relationships
- Excellent reputation
- Significant number of clients
- Relocatable

This is a great opportunity for a driver to take charge of their working life and earn an excellent income. Suitable for anyone wanting to get out of the office and enjoy working outdoors and on the road as an owner operator, alternatively it could be a fantastic bolt on to an existing carrier or courier business.

This business model is very simple; ensure that the products being delivered arrive at the intended destination on time and in the same condition as when they left their origin. This is achieved by offering excellent service and reliability, along with a smile and going the extra mile.

The freight is a niche product not easily carried by your average courier or carrier, as it requires a specialised, fit for purpose system to be installed in the truck. Clients are based in Auckland, Waikato and the Bay of Plenty.
