

Manufacturing & Installation – Owners return \$430K

Established over 15 years ago this north shore based manufacturing and installation business is extremely successful returning around \$430,000 for 2014 financial year. The business has been consistent year on year and is currently tracking to have an even better financial year with a full book of work and further enquiry flooding in. This is a very tidy, slick operation with first-rate equipment and CNC machining. With excellent long standing experienced staff, a strong name in the market, renowned quality and proven track record this business is a solid investment. This is an opportunity in which it would be more beneficial for a new owner to understand business than to be an industry expert and with the current systems, staff and pre booked work in place a new owner has good sense of security. Currently the Vendor has been doing limited hours due to another project so the opportunity and resource is there to run the business under management or semi-managed.

This is a great business ticking all the right boxes. North Shore based with 16 years history, strong brand and name in industry, award winning, consistent profits, full book of work, excellent long standing staff –basically a very slick and tidy operation. Enquire now to find out more.
