Construction Company - Tracking $1M + Profit

Step into a highly profitable business with a huge $7 million pipeline of confirmed work! The current 3 month management accounts show a return of over $450K, so the annual income is tracking well over $1million profit.

Run remotely by the Vendor the business has had consistent revenue of over $7million per annum and with the right strategic management can return circa $1million (as proven in 2015). Due to other commitments the owner has had reduced input in the operation, but still managed a *3 year average cash surplus of circa $695K.

This long established large modern construction company has successfully built a great name and recognisable brand within the Auckland market. Producing a high calibre of work, they have formed a highly successful structured organisation with a fantastic team culture.

The buyer doesn't necessarily need construction knowledge and the operation presents an exciting opportunity for someone with a good finance and strategic background that is looking for a company they can grow. The Vendor will offer continued support or alternatively he is currently looking to hire a specialised GM so the business could potentially be fully managed.

With sizeable profits, a huge core of qualified reliable staff, excellent systems and a huge pipeline of confirmed work this presents an exciting business opportunity.

Asking Price: $1,500,000 Including Plant
